

US Withdrawal from Loss and Damage Fund

Source: IE

The US has withdrawn from the Loss and Damage Fund (LDF), furthering its disengagement from global climate commitments like the Paris Agreement and Green Climate Fund.

- LDF: Created at <u>UN Climate Change Conference COP 27</u> in Egypt,
 the LDF supports developing and small island nations facing climate-induced losses like rising sea levels, heatwaves, and extreme weather, with contributions from developed nations.
 - The LDF is managed by a Governing Board, with the World Bank as its interim trustee.
 - Nearly USD 750 million pledged under LDF, with the US contributing USD 17.5 million before withdrawing.
- Implications of US Withdrawal: Vulnerable nations, including India (which alone faced USD 56 billion in weather-related damages (2019 2023)), face growing uncertainty in climate aid, further straining North-South climate negotiations.

CLIMATE FINANCE

Climate finance refers to local, national or transnational financing—drawn from public/ private/alternative sources of financing—to support mitigation and adaptation actions against climate change.

PRINCIPLES OF CLIMATE FINANCE

- Polluter Pays
- © Common but Differentiated Responsibility and Respective Capability (CBDR-RC)

Multilateral Climate Funds Coordinated by UNFCCC

- Global Environment Facility (GEF): Operating entity of financial mechanism (1994)
- **№** Kyoto Protocol (2001):
 - Adaptation Fund (AF): Gives developing countries full ownership of adaptation projects
 - Clean Development Mechanism (CDM): To carry out emission-reduction projects in developing nations
- Green Climate Fund (GCF): estd. 2010 (COP 16)
 - Funds under it Least Developed Countries Fund
 (LDCF) and Special Climate Change Fund (SCCF)
- **Solution Long-Term** Climate Finance:
 - Cancun Agreements (2010): Mobilize and provide scaled-up funds in short and long term
 - Paris Agreement (2015): Developed nations agreed to establish new collective goal of at least \$100 billion/year by 2025
- Loss and Damage Fund (2023) (COP27 & COP28): Financial assistance to nations most vulnerable and impacted by effects of climate change

Climate Investment Funds (CIFs) under World Bank

- Clean Technology Fund
- Strategic Climate Fund

INDIA'S INITIATIVES REGARDING CLIMATE FINANCE

Fund

- National Adaptation Fund for Climate Change (NAFCC) (2015)
- National Clean Energy Fund (2010-11)
- National Adaptation Fund (2014)
- Intended Nationally Determined Contributions (INDCs) (2015)
- Climate Change Finance Unit (2011)

Objective

- For vulnerable Indian states
- Advancing clean energy (started with initial carbon tax on industrial coal use)
- Bridging gap between required and available funds
- Nationally binding targets adopted under UNFCCC
- Leads on global climate finance issues

Challenges to Climate Finance

- Gap between national needs and climate finance under NDCs
- Least Developed Countries receive much less approved funding in per-capita terms from the multilateral climate funds
- Slow rate of approvals
- Failure in securing viability-gap funding
