New Species of Tree Frog

 drishtiias.com/printpdf/new-species-of-tree-frog

A new species of tree frog, discovered in West Bengal, has been named **Brown Blotched Bengal Tree Frog** (*Polypedates bengalensis*) due to a series of six to nine dark brown

blotches present on its body.

It is a **mid-sized tree frog** and is the **26th species** under the **genus *Polypedates***.

Polypedates is a genus of tree frog found throughout South and Southeast Asia.
